## Evaluation of Feedback from Parents (2022 - 23)

Arya Vidyapeeth College (Autonomous) is a co-educational higher institution of learning, designed for the training of youth in preparation for life and service to mankind. It seeks to produce men and women of refined character, fruitful to the society and the nation, educated in a truly educational setting. Parents are important parts of this process and their involvement is important to us. The feedback from Parents provides them the opportunity to comment on the quality of their child's learning experience and also to assess the success of academic provision of the college. Moreover, it provides feedback on the different facilities provided by the college which helps in augmenting them. The feedback forms have been designed with the help of Google forms by the IQAC of the college and shared with the parents. The feedback collected included rating of key services on a five point scale from "Excellent to Poor". The analysis of the feedback of 630 parents is given below:

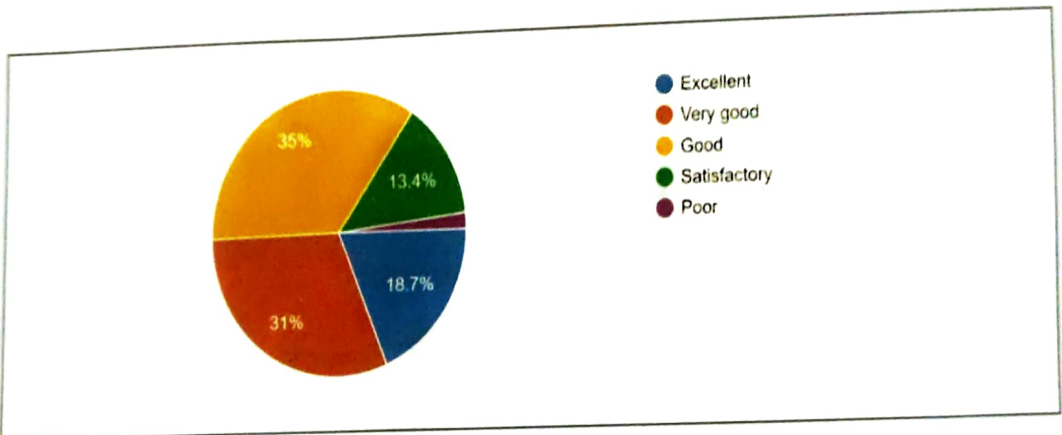

### 1. To what extent the following facilities of the college satisfy you?

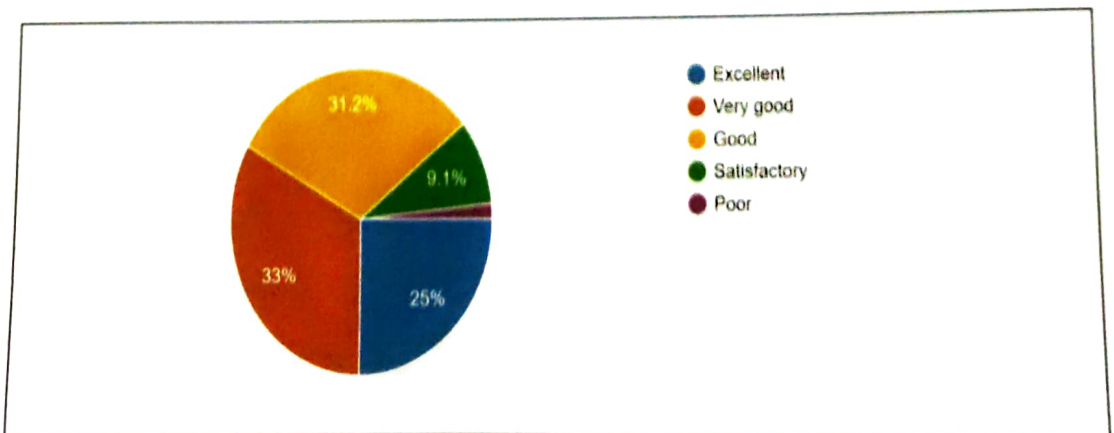

2. How is the reputation of the College ?

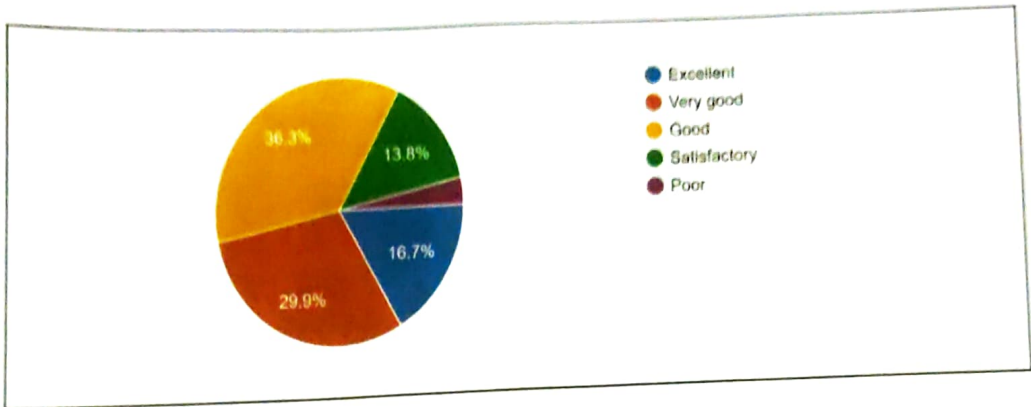

3. How would you rate the infrastructure and lab facility of the college?

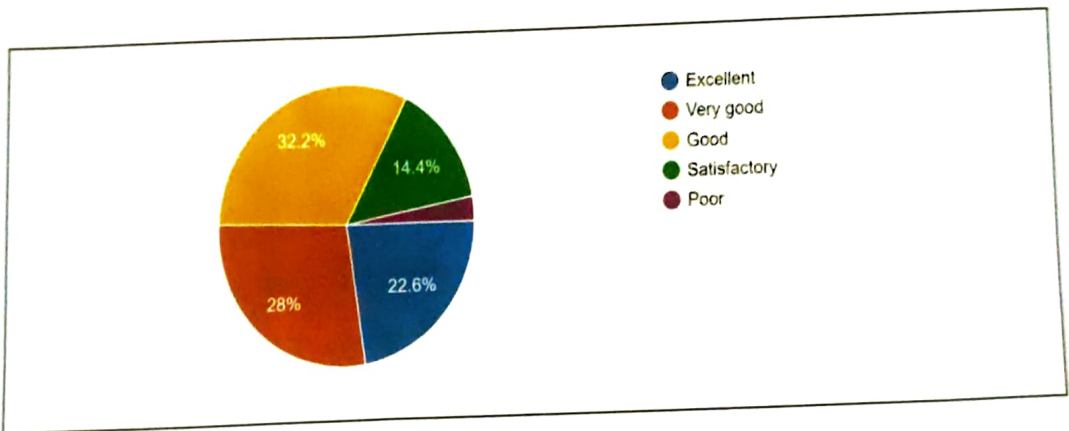

4. How is environment and ambience of the College ?

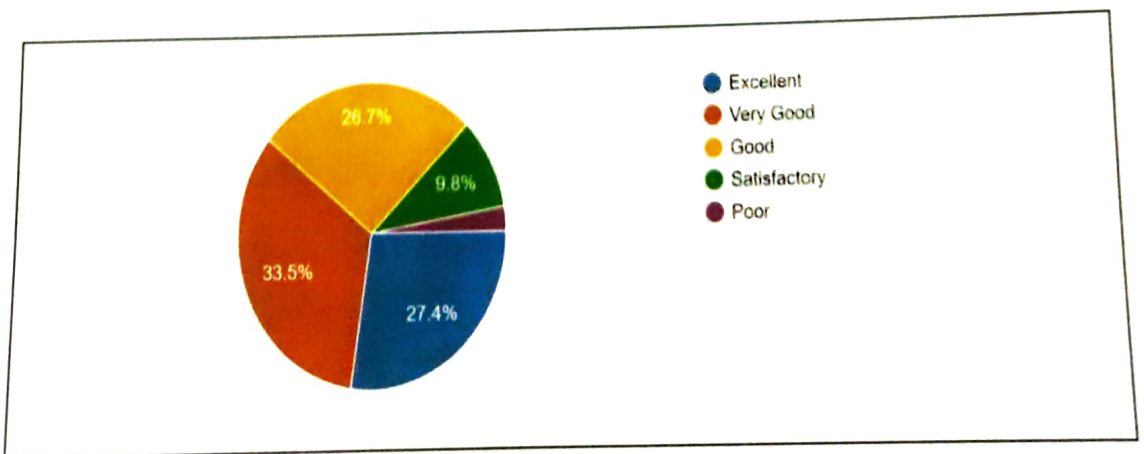

5. What is your assessment of the security arrangements and safety measures in the college?

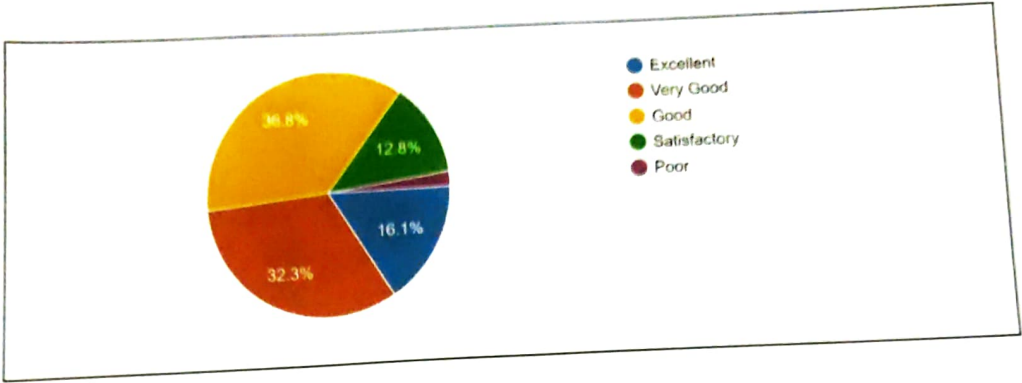

6. How would you rate the admission procedure?

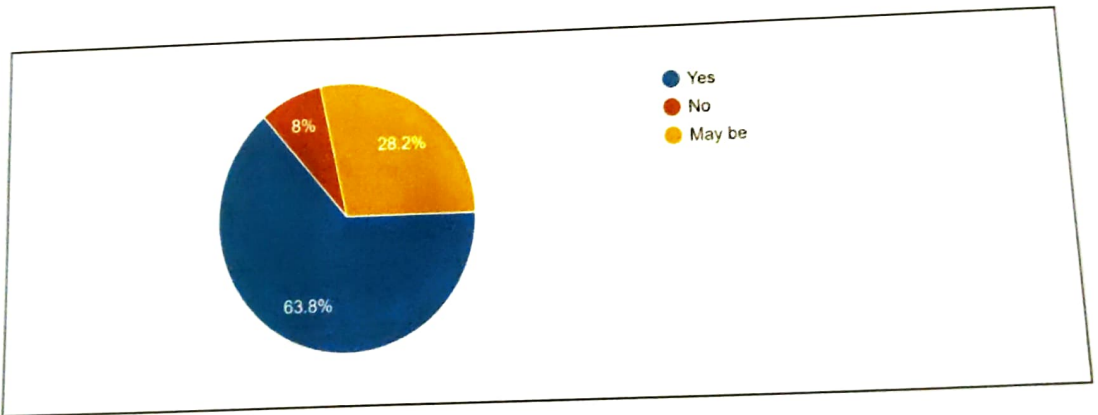

7. How would you rate the academic discipline (i.e. timely conduct of lectures, practical etc.) observed by the college?

8. How would you rate the use of information and communication technology by the college?

9. Have you observed any improvement in soft skills, knowledge ethics, morality in your son/daughter while staying in college?

### Suggestions:

- Improvement needed in sectors like games and extra circular activities
- I would like to suggest that the college authority should focus on creating spaces where students can come together and I also suggest to maintain the college grounds clean and green and increase parking for student vehicles.
- No cleanliness of the washroom. More books are needed in the library. Punctually classes should be conducted.
- Provide more guidance and support to each student, and also by individual supervising and understanding their needs. Explanation regarding each subjects and

more time to make it clear to all, so that even the students who could not afford tuitions can surplus their exam.

- The Environment of college feels like a beautiful garden, I personally as his mother like the beauty of the garden near boys common room and the guards are always on the watch. But, internet facility is poor.
- Infrastructure can be improved, Hygiene can be improved.
- Make the college little strict
- There is a need of lift for the students, as it could make it easier for students with mobility issues to navigate around the campus.
- And also the college can arrange some sitting areas in the college, this would be a great way to create more comfortable and social spaces for students to interact with each other and study.
- The girls' common room need to be cleaned very often as it smell very bad, it's important to ensure that all areas of the college are clean and hygienic, and this is definitely something that should be addressed.
- The canteen needs to be more hygienic and provide healthier food options. This is crucial for the health and well-being of students, and the college should strive to provide nutritious and tasty food in a clean environment.
- A break for tiffin time is required
- By arranging group discussions, debate competitions, quiz contests and online seminars, students will get more interest in education, hence, engage more in the course of learning. Share your personal experience to let them understand the difficulty in real life. Give a hint to a student where he/she need improvement
- We are happy. Our child is given the chance to learn and develop in every way. The college has done good job of finding the right amount of co-curricular and academic programmes.
- Some of the college staffs don't even aware of how to deal with people. Besides this, overall experience is good. Thanks,
- Making physical improvements and increasing educational opportunities will benefit the college

- Sports events could be much better
- As there are many students who came from rural area, they need to be guided to develop their professional ethics like what to wear in interview how present your self, how to speak in interview, plus aware them that degree is not only the key for job but experience is more important so let them do some internship somewhere.
- Teach them Excel as it is most important and used in every business and companies
- Aware them about the government jobs etc
- Career counselling is needed.
- Please try to conduct regular classes and seminars so that my son goes to college everyday instead of staying home
- More attention to course completion and notes sharing can be given and Canteen sitting space can be increased.
- Install water purifier
- Hold the class according to the timetable. Don't change it in last moment it's difficult for some students as they travel from far
- Speakers could be installed in the halls so that all students can listen to the teacher properly. The canteen and auditorium is smaller as compared to the number of students in the college.
- Need more counseling for students.
- Drinking water is not available make sure drinking water is available all the time in this summer season
- The college should have toilet in each floor for the students.
- Counselling and Skill based Subjects should be done more often
- Improvement in canteen food and sports ground for extra curricular activities
- Students should be given guidance from the teachers
- Teaching method of this college is very good & all professor's behavior also very good. Regarding college administration is very good.

- I think that the work for practicals should be started from the second month of the semester which might be helpful in completion of practicals at the earliest and this will help in better focusing on the upcoming examination without the fear of in-completion of the practicals .
- The college should provide some self defence skill courses like karate and taekwondo for both girls and boys in low cost for their Physical and self exercise.
- Canteen must be a lot bigger
- Everything is fine.
- All Department should provide the students with valuable notes which will eventually improve the results of the students. And another important thing to be notice is that before conducting the End semester exam , the college should provide the results of the earlier sessional examination that was conducted, that will atleast provide the students with some visual ideas on how they can score more marks!
- Website facilities to improve

#### **Overall Feedback analysis:**

It is found that all the parameters were rated highly by the parents. As per parents input regarding the services provided by the college about 65% of them felt good, about 42% parents rated very good and 30% as excellent. Consistently about 33.2% parents felt the college has an excellent reputation and 34.5% felt that the reputation is very good. 35% of the parents opined that the infra-structure and laboratory facilities are good while nearly 19% felt it is excellent. Regarding security and discipline of the college campus and academic atmosphere more than 60% parents rated between very good to good while nearly 28% of them felt that it is excellent. For parameters like admission procedure (32.2%) parents rated good. In the parameter like use of ICT, nearly 69% parents rated between very good to good. It is very heartening to find that 63.8% parents have observed improvement in soft skills, knowledge ethics, morality etc in their son/daughter while staying in college.

In the suggestions given it was seen that most parents felt the need of career counselling for their children studying in the college. It was also felt that the toilet facility needed to be upgraded together with good canteen facility.

#### **Action Taken:**

- Extra-curricular activities: The college authority encourages the students to participate in extra-curricular activities. The students who excel in such activities are appreciated in open forum. The students are also encouraged to participate in youth festivals and such other activities. Special incentives are given to the participants. This has improved the students participation in extra-curricular activities.
- Medical: The facilities for students in the existing primary health centre of the college is increased in consultation with the medical officer.
- Hostel: The hostels are refurbished . A new hostel for girls is under construction.
- Library: The library is completely digitized. There is a web portal for the library.
- Counselling and Guidance: The career counselling cell of the college is strengthened further
- Canteen: The canteen committee is assigned duty to review the quality, variety and prices of items sold in the college canteen.
- Internet facilities: This facility is further revamped with an aim to make the entire college campus a wi-fi zone. At present the internet speed is more than 300 Mbps. The internet facility is available to the students at the college library and the computer cell.
- All HoDs will review the functioning of the laboratories weekly and take regular feedback from students.
- The college has already received grants from RUSA for infra-structure development and work has already started.
- In last five years, more than 14,000 sq. ft of infra-structure were constructed which includes laboratories and classrooms.
- The college has Rs. 9.0 crore from NEC to further augment its infra-structure.
- The college has started to construct an administrative block from its own resources
- The entire admission process is done in online mode. To further improve the process SMSs are sent to students who have been selected for admission. The college website is regularly updated for information regarding admission process.
- For the benefit of the students, the number of helpline numbers are increased.
- The HoDs are requested to submit monthly class taken report to the Office of the Principal regularly so that the academic discipline is further improved.

- The college has established a Skill Development and Entrepreneurship Department which shall co-ordinate with external agencies/institute/industry to impart skill/vocational courses/internship to the students.

**Conclusion:**

On analyzing the feedback received, over the course of time by the parents, it is observed that parents are largely satisfied by the efforts made by the college administration in admissions, teaching and learning, discipline and other related matters and high degree of satisfaction has been shown by the parents on implementations of some of the suggestions made by them.
