Student Satisfaction Survey (2022 - 23)

Arya Vidyapeeth College (Autonomous) undertook student satisfactory survey among the students besides the regular students' feedback for the session 2022 – 23 in online mode to further augment the teaching – learning process of the college. This survey included the questionnaire as recommended by NAAC. Nearly 83% of the students participated in this survey. The report of students satisfaction survey conducted is given below:

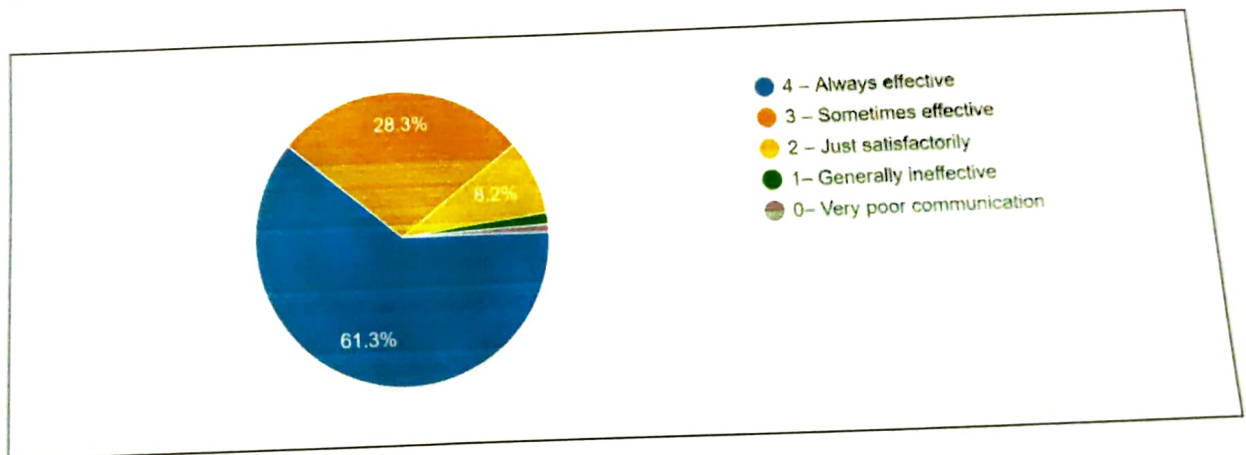

1. How much the syllabus was covered?

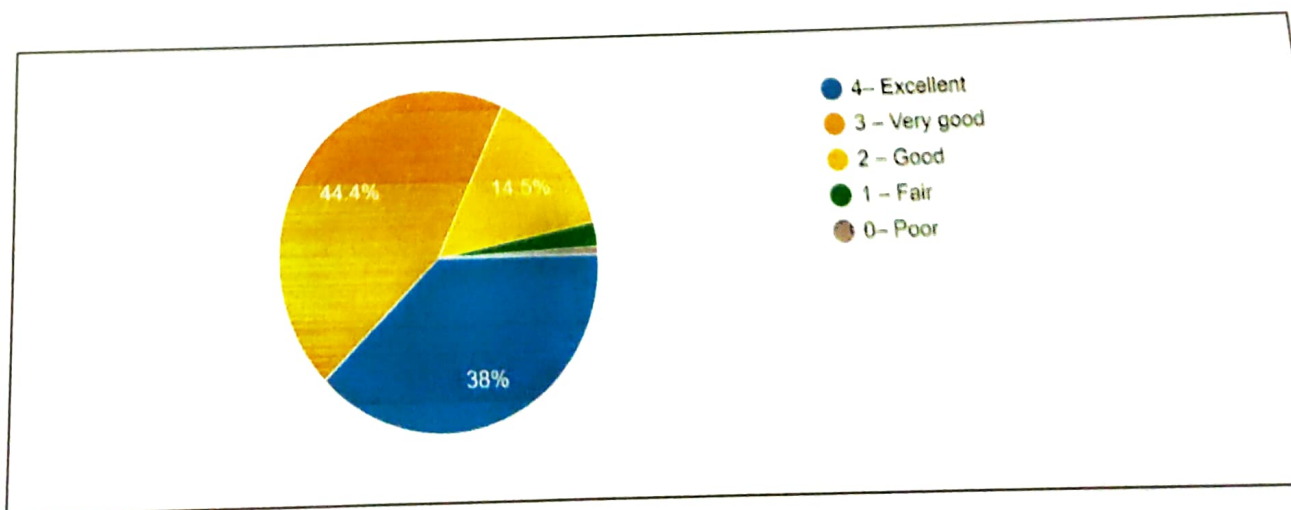

2. How well did the teachers prepare for the classes ?

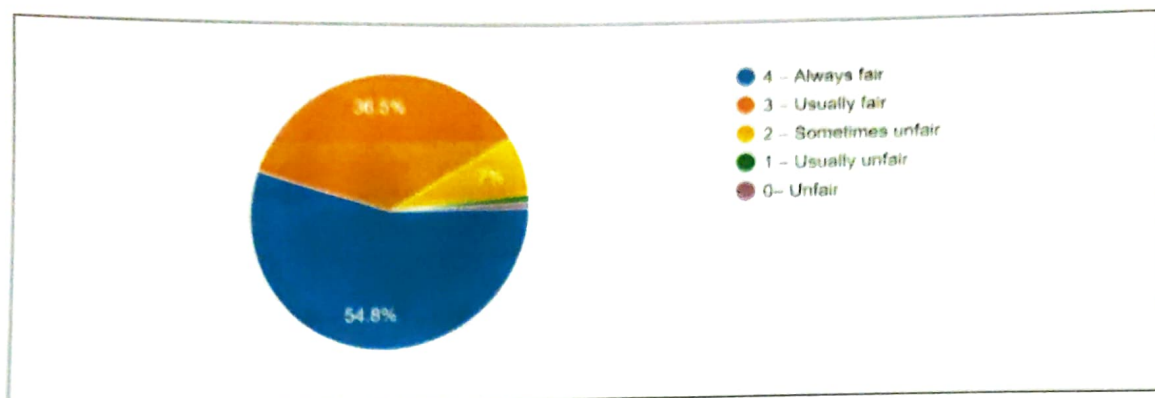

3. How well were the teachers able to communicate ?

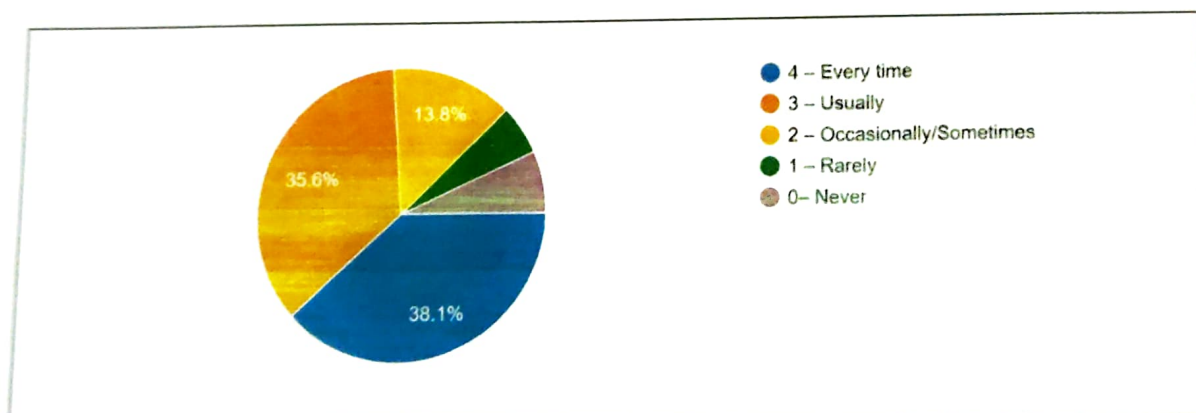

4. The teacher's approach of teaching can be described best as

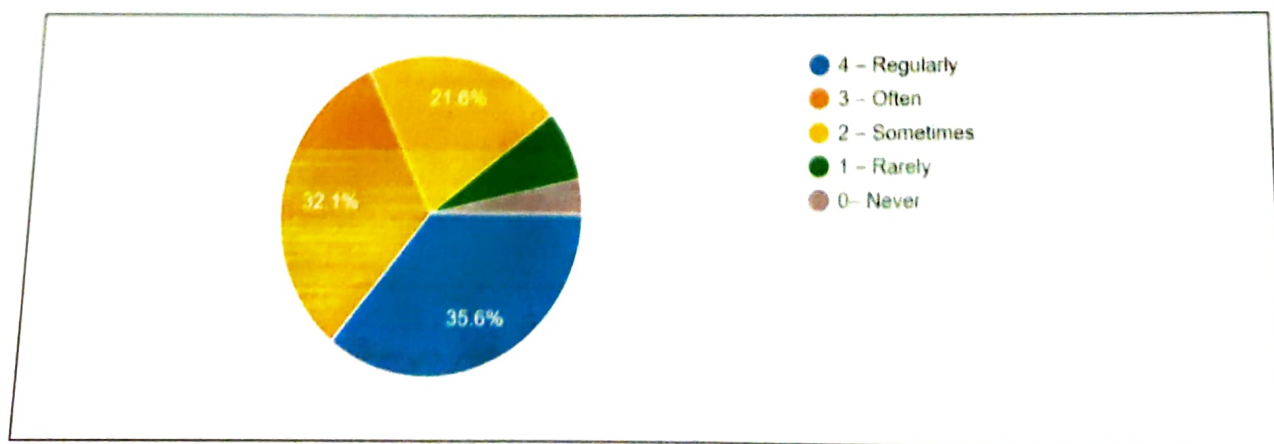

5. Fairness of internal evaluation process by the teachers

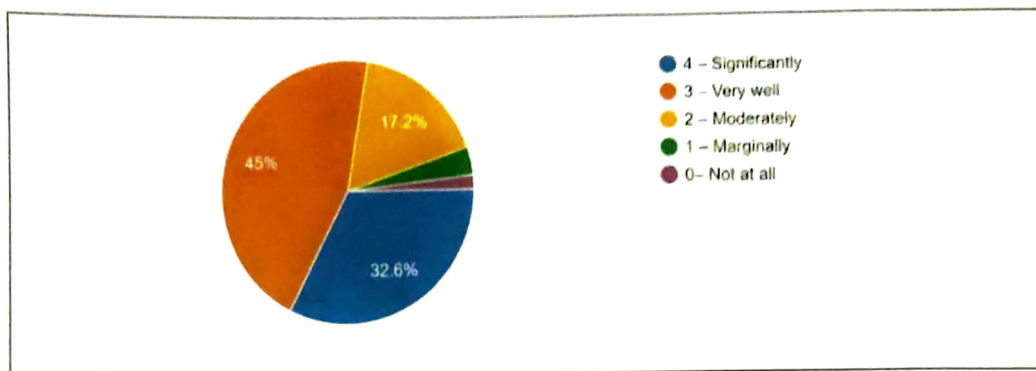

6. Was your performance in assignments discussed with you?

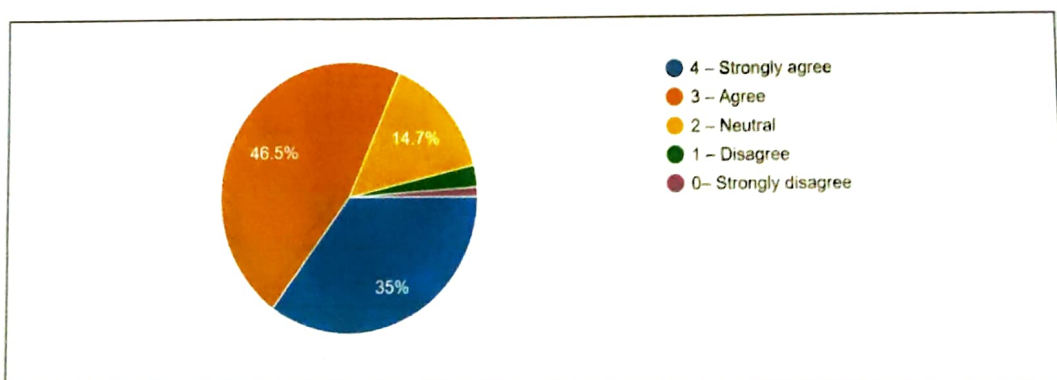

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students

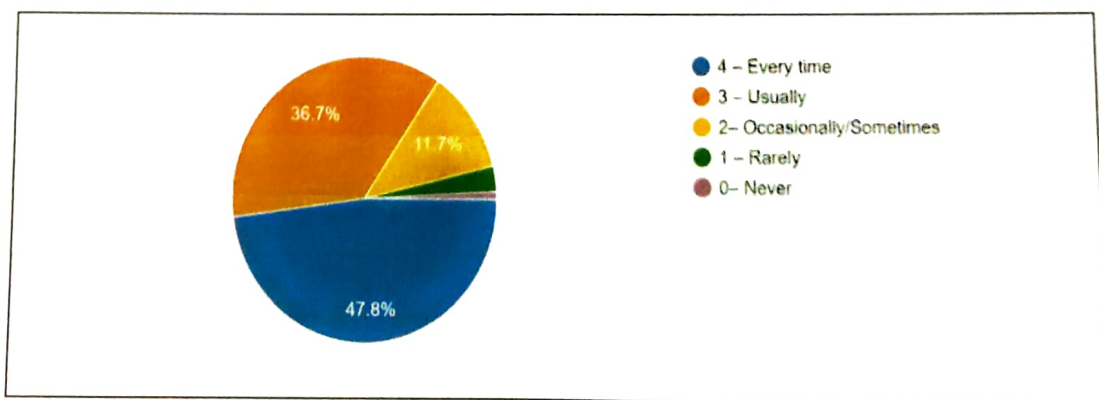

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth

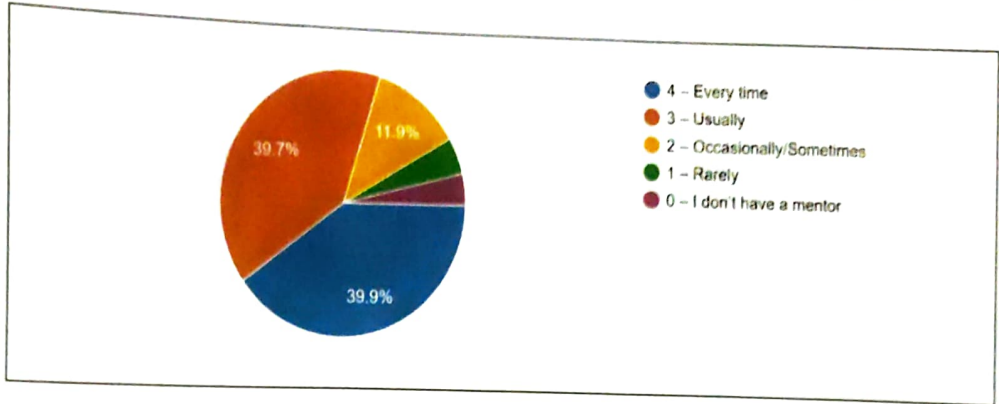

9. The institution provides multiple opportunities to learn and growth

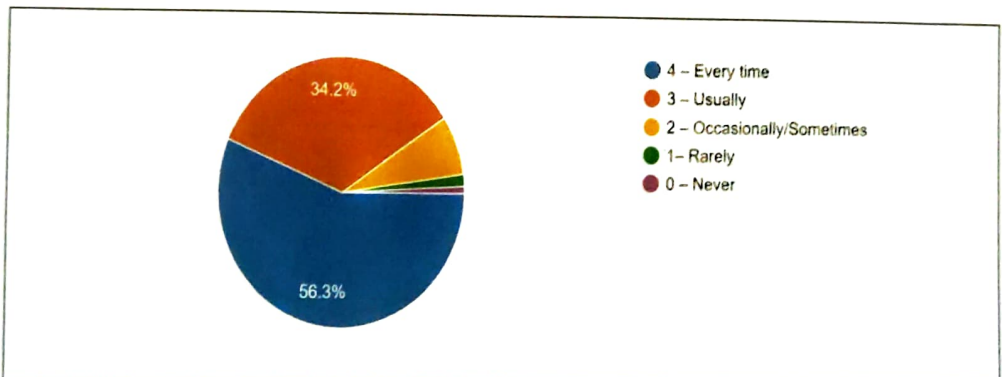

10. Teachers inform you about your expected competencies, course outcomes and programme outcome

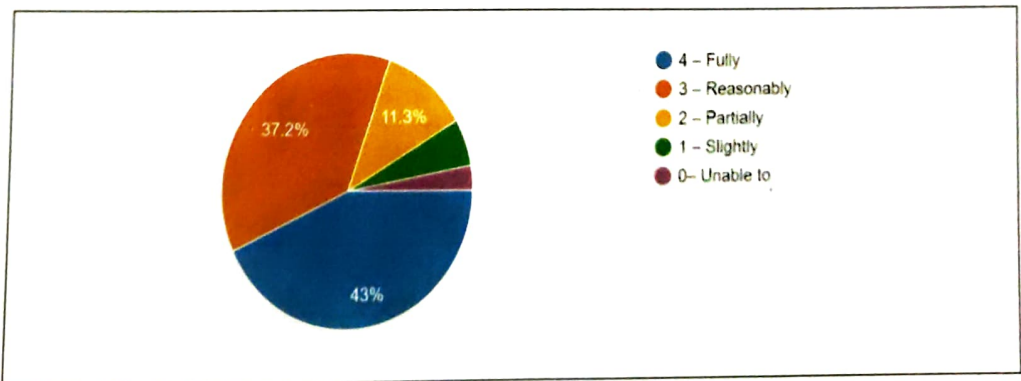

11. Your mentor does a necessary follow up with an assigned task to you.

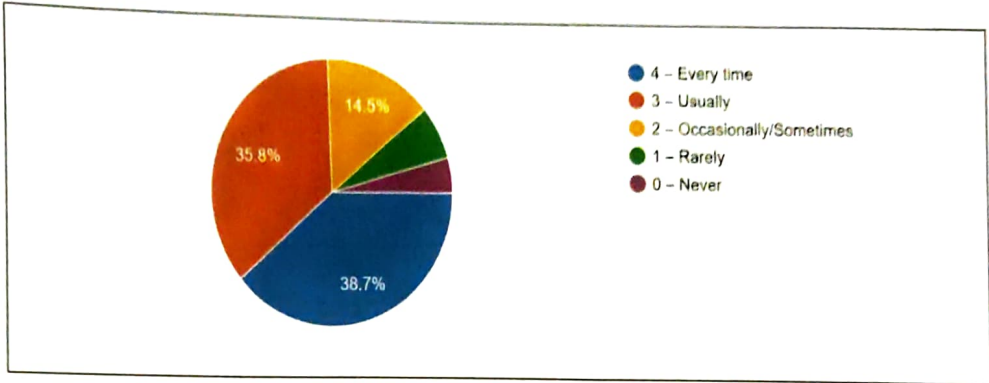

12. The teachers illustrate the concepts through examples and application

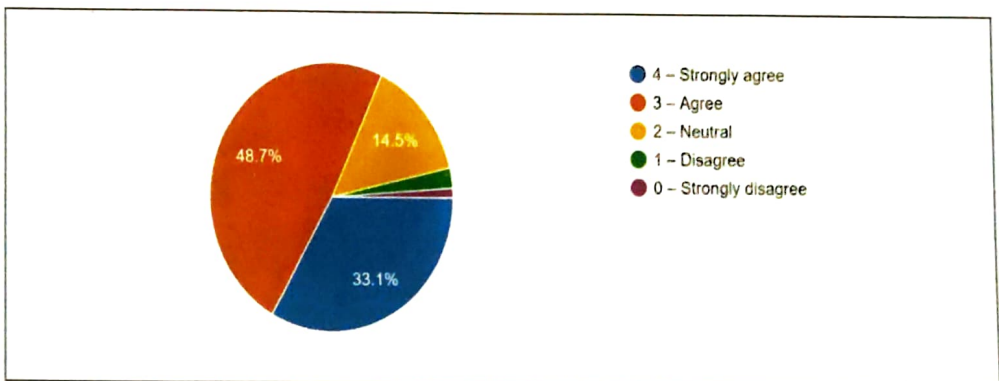

13. The teachers identify your strengths and encourage you with providing right level of challenges

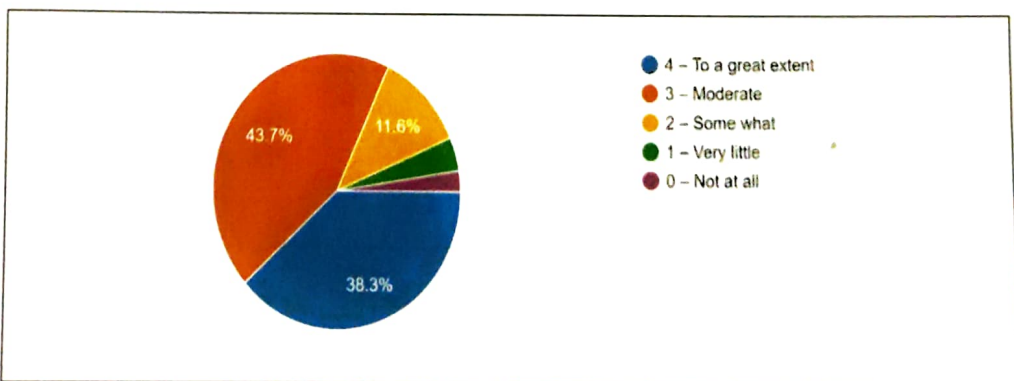

14. Teachers are able to identify your weakness and help you to overcome them

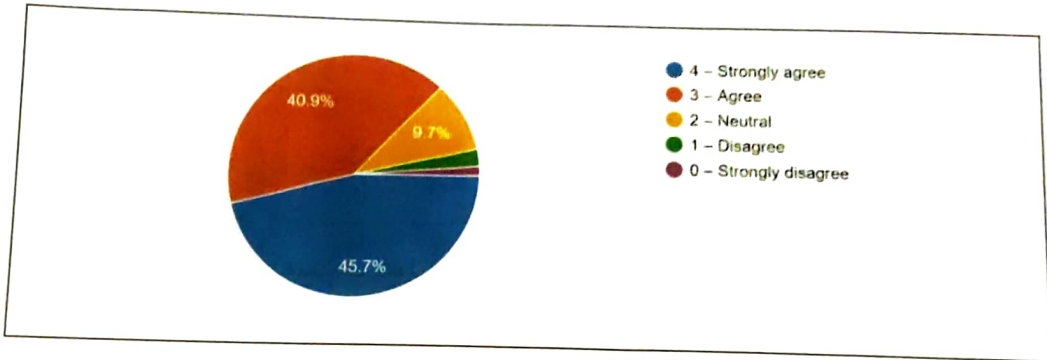

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

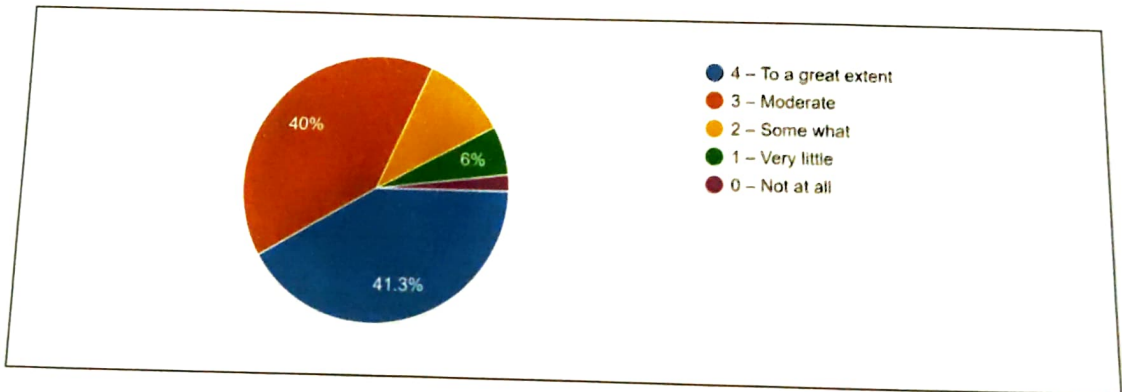

16. The institute/teachers use student centric methods such as experiential learning, participative learning and problem solving methodologies

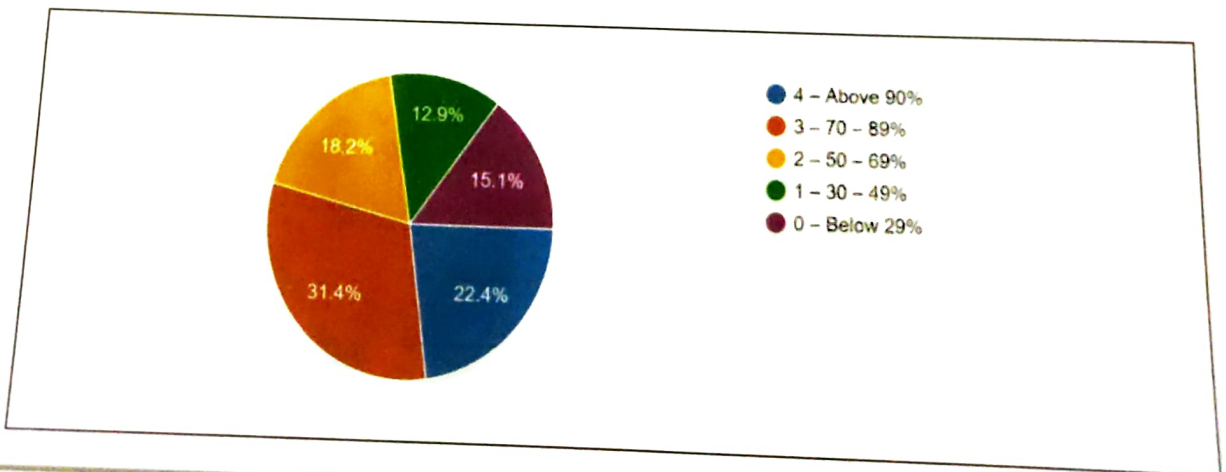

17. Teachers encourage you to participate in extra-curricular activities

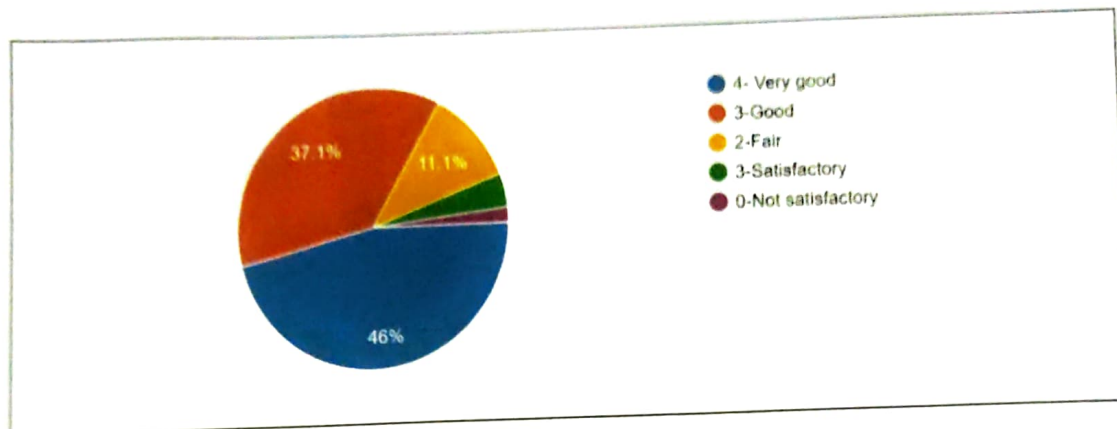

18. Efforts are made by the institute/teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work

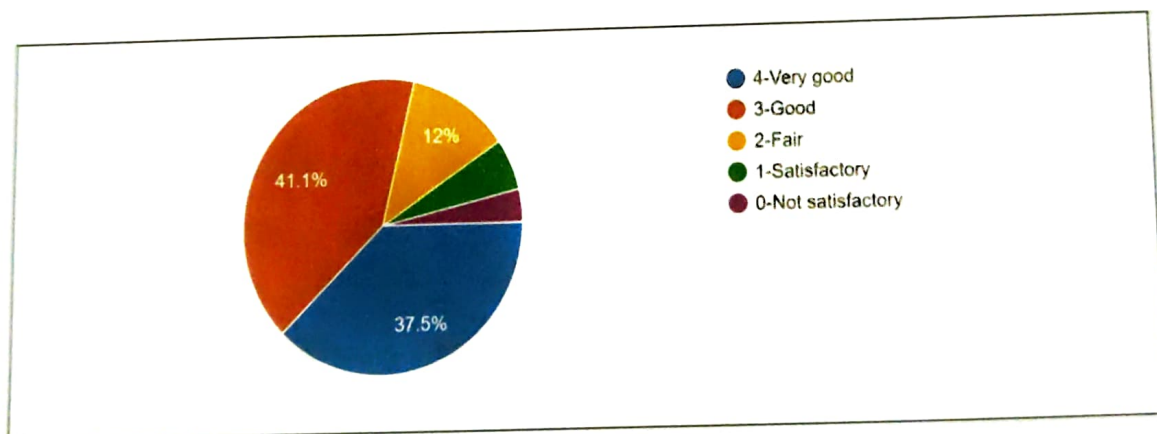

19. What percentage of teachers use ICT tools such as LCD projector, multimedia etc while teaching

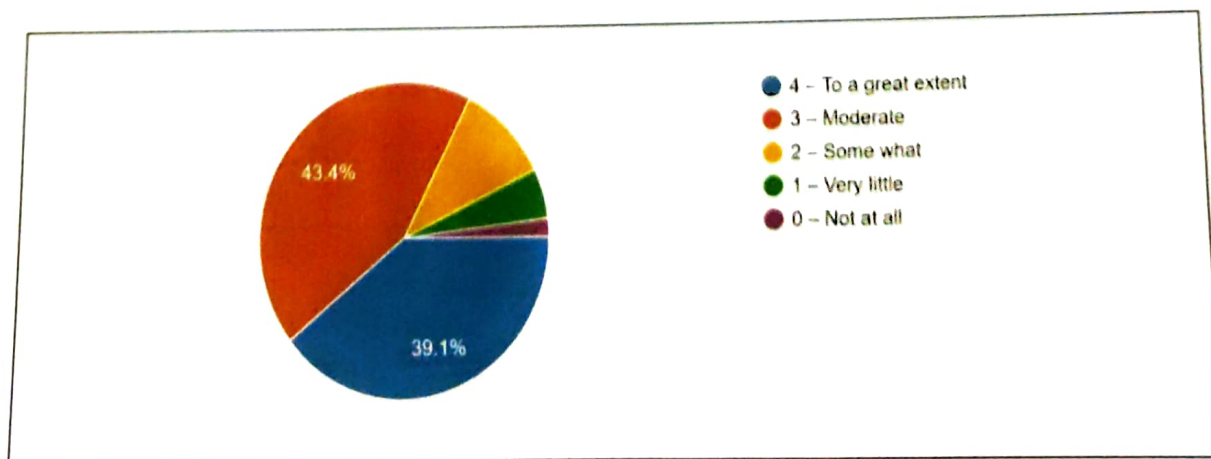

20. Level of opportunities in department/college for seminar/workshop/ conference/research projects etc

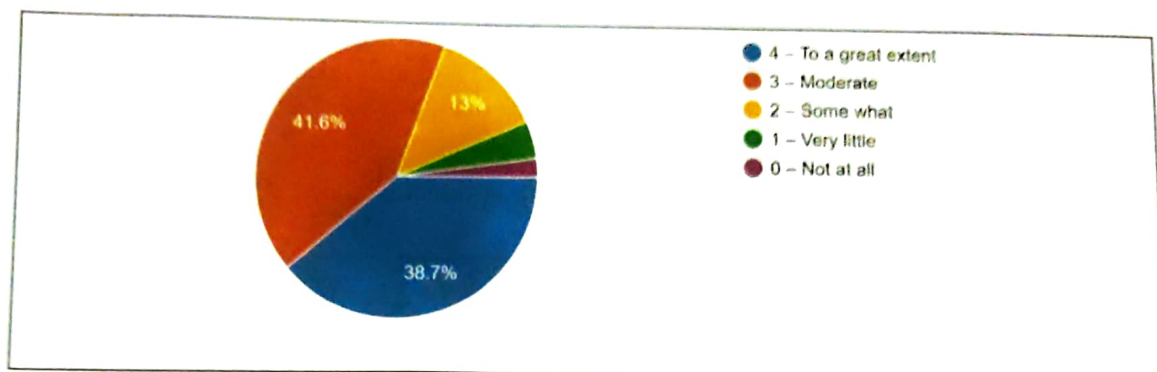

21. Quality of classroom facilities (Seating arrangement, teaching aids, audio-visual aids etc.)

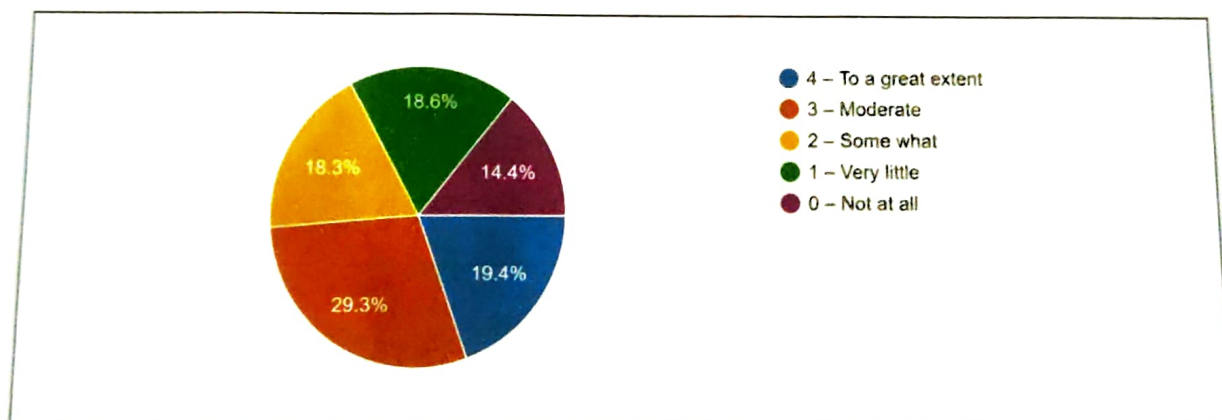

22. Are you satisfied with administrative staff ?

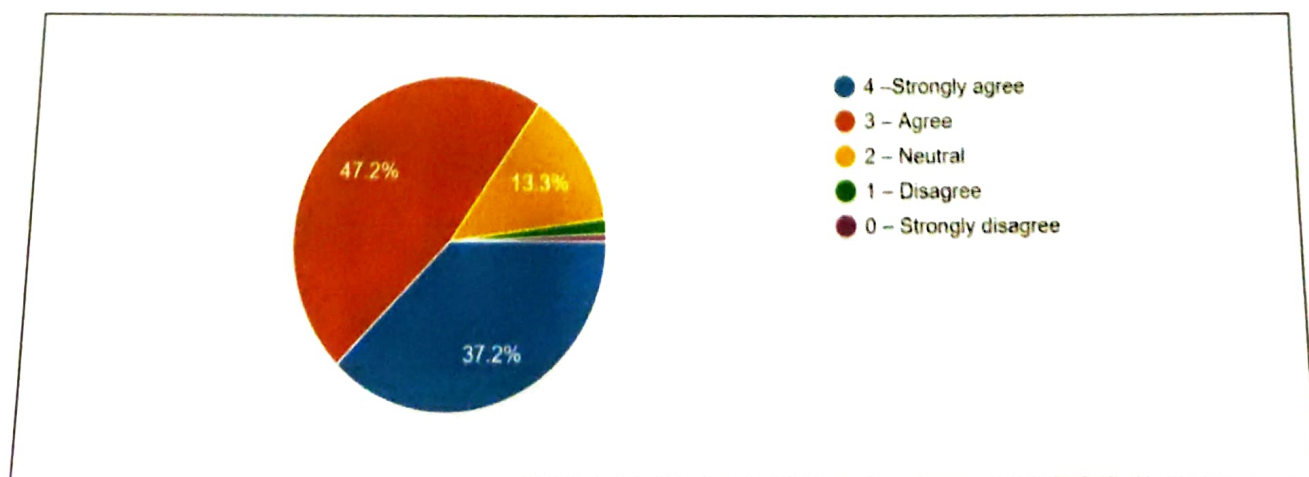

23. Are you satisfied with the library facilities and other online facilities ?

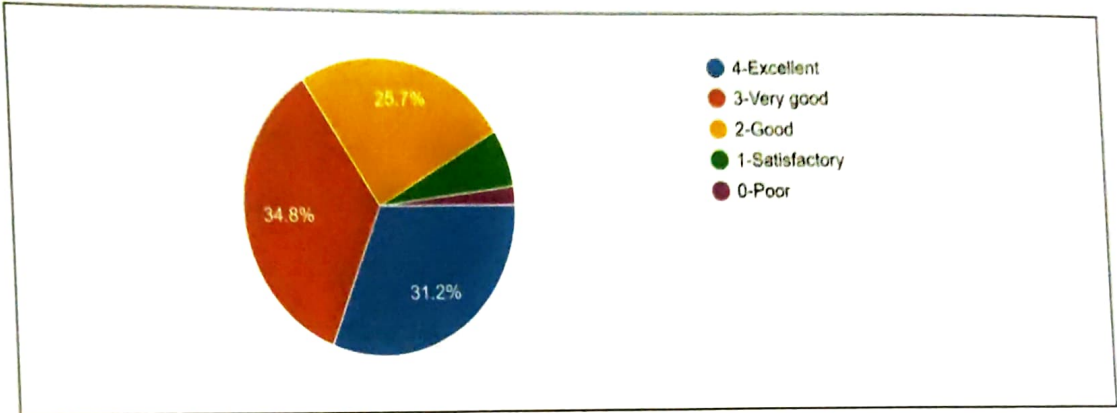

24. Are you satisfied with the canteen, washroom and drinking water facility

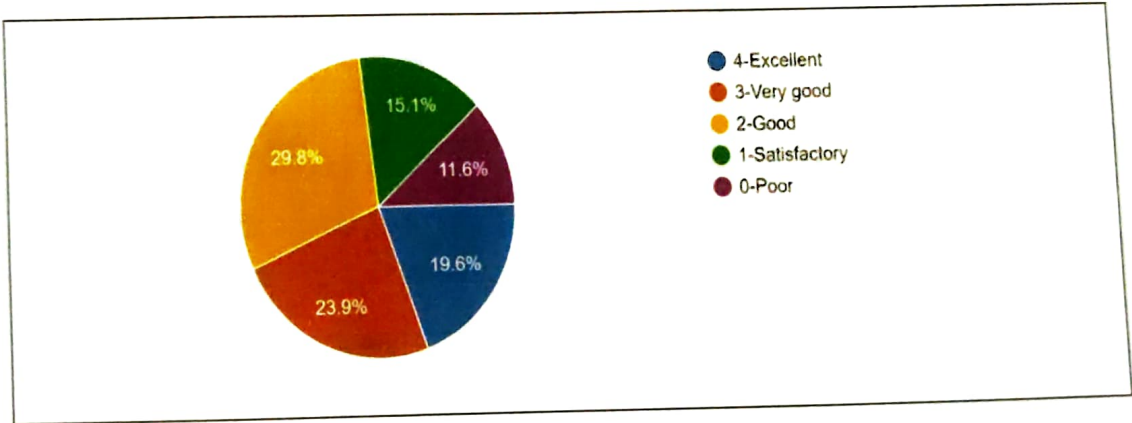

25. The overall quality of teaching – learning process in your institute is very good

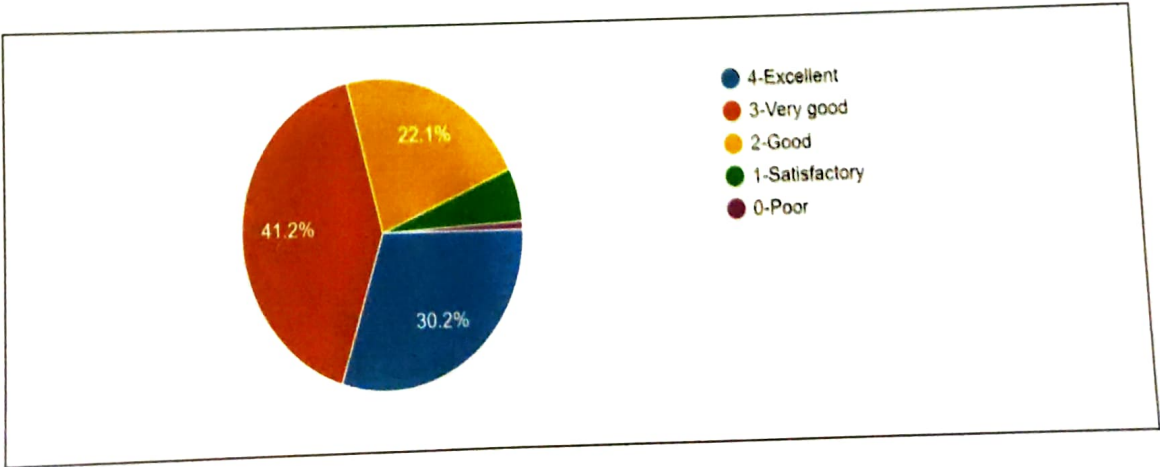

26. Overall Quality of infra – structural facility

27. Quality of other facilities like hostel facility, playground, boys’ and girls’ common room etc.

28. Overall experience of the institution

29. Some suggestions given by the students to improve the overall teaching – learning experience in the institution :

- There should be more effective technical helpline numbers.
- More workshops/hands on training programme need to be organized instead of seminars
- More communication with student's so that teachers are able to teach in a professional or proper way
- Smart class to be introduced
- Please let student wear the college uniform correctly boys wear slippers instead of shoes and some girls will wear tight clothes student should know the corporate etiquette.
- More thorough explanation of the syllabus is recommended
- I think the teachers should have a friendly relationship with the students. That shall make the bond strong. And the students can also feel free to ask about their doubts
- Washroom, girls common room
- Various internship programmes should be introduced for the betterment of students, MUN should be conducted in the institution also group presentations should be taken by teachers on a weekly basis relevant to the ongoing topic
- The college website is very poor it should be maintained.
- The teacher should communicate the topics with the students rather than just providing the notes. Notes can be obtained through various ways these days but good teaching is rare.
- I just want to suggest to make the auditorium more spacious & big so that we can enjoy the programmes of our college nicely.
- Teachers should use all kind of languages
- I would like to suggest the campus to be clean and the common room is full of dust not at all maintained the seats are not being changed as it was before it's still the same after election too .
- More extracurricular activities like learning a new language may be introduced. Besides clean washrooms, information regarding internships for students after graduation are needed.
- Showing 3D visuals and videos regarding concepts and practicals would be helpful. Better laboratory equipment and instructional training would be appreciated. Extensive mentoring and supervision needed beyond book concepts needed.

- Overall teaching is satisfactory one but in my point of view the girls as well as boys common room and canteen should be taken care of properly.
- To finish the syllabus on time, professors should come to class on time, taking test after completion of a particular lesson
- By conducting class test , by using better graphics and visual media to engage students well, and making teaching a two way interaction .
- First of all the administration should be improved. And then automatically other things will start improving.
- Teaching quality is good, availability of infrastructures is very poor
- The canteen and drinking water machine in each department should be upgraded
- Should help the weaker students more
- Please introduce digital black board and digital noticeboard, Please update computer cell's computer, there is no internet connection and due to internet connection we are facing so much problem.
- After completing a particular chapters, there should be a Class test
- Derivations and difficult mathematics shouldn't be taught via slides only. Classroom doesn't have enough fans to cover the entire class. Courses are to be completed on time
- Expand the parking spaces for the students. The canteen seating space is small
- More number of practical apparatus should be present in laboratory.
- Teacher used their best resources to motivate and teach us the moral values. Teachers are very comfortable to share their time in solving our doubt
- For girls hostel, we need a place where we can walk.
- Mental Health Course should be regular
- The playground, the washroom and the common room need to improve
- My experience in institution very good.
- Spoken English course is needed.
- Should be provided with good writer books for both honours and generic subjects and computer course should be provided free of cost so that everyone can learn easily
- The examiner office should have to improve
- Recognition of regular (pass course) students, HoD or teachers should be appointed for regular students like other departments, many regular students felt that they don't have a teacher to

overlook them. It might be possible that a great student might come out in light, under a teacher's guidance.

- Encourage cooperative learning, communicate with colleagues, create a welcoming environment.
